EXP 7	Member List Report

Aim:

To create a Member List report that shows all registered members with their department and membership status.

Theory:

The Member List report gives the librarian a quick view of who is registered and whether the member is Active or Inactive.

Procedure:

1. Open Application IDE > Members > All Members.
2. Rename the report to Member List and add the columns Member ID, Full Name, Roll Number, Department, Email, Phone Number, Registration Date and Member Status.
3. Save and open Member List from the live application.
4. Scroll right to view the registration date and status columns.

Program (Member List report - columns):

```
list All_Members
{
    displayName = "Member List"
    show all rows from Members
    (
        Member_ID as "Member ID"
        Full_Name as "Full Name"
        Roll_Number as "Roll Number"
        Department
        Email
        Phone as "Phone Number"
        Registration_Date as "Registration Date"
        Member_Status as "Member Status"
    )
}
```

Output:

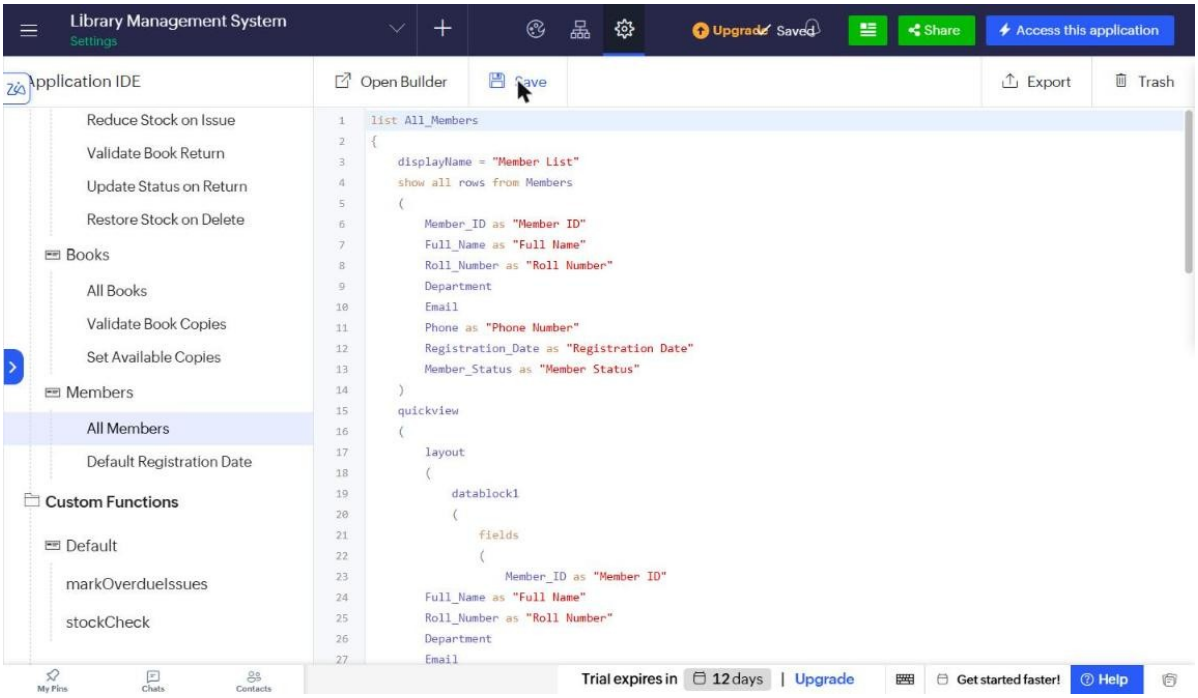

Fig. 7.1: Member List report definition

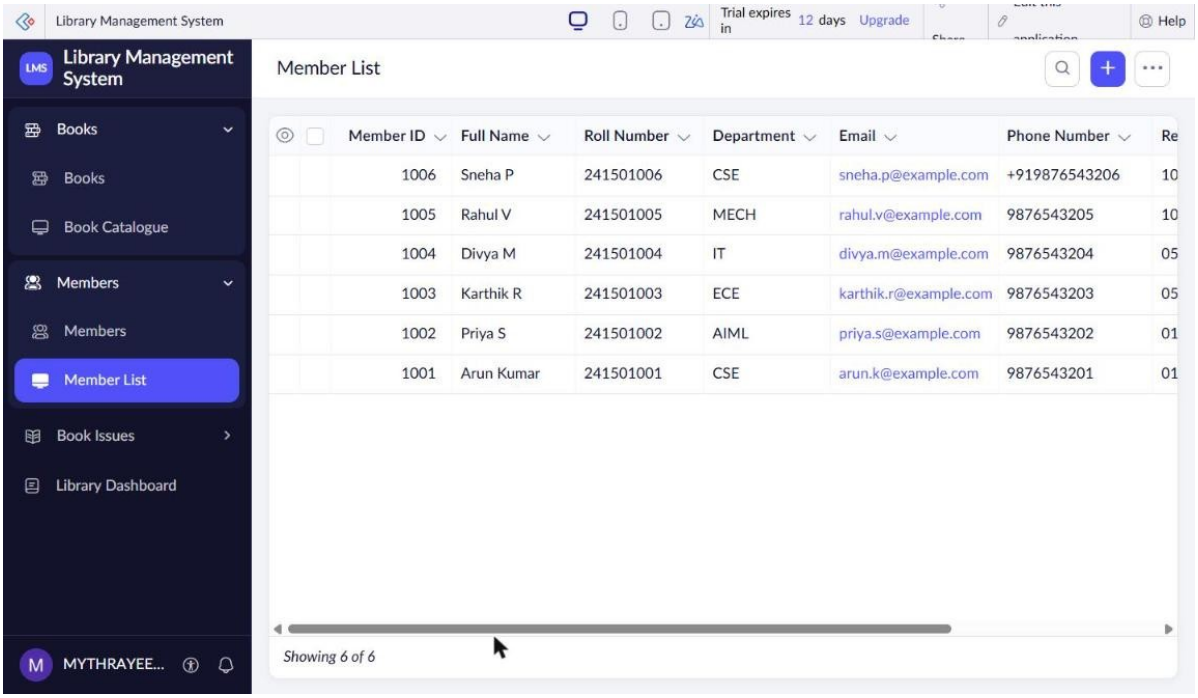

Fig. 7.2: Member List in the live application

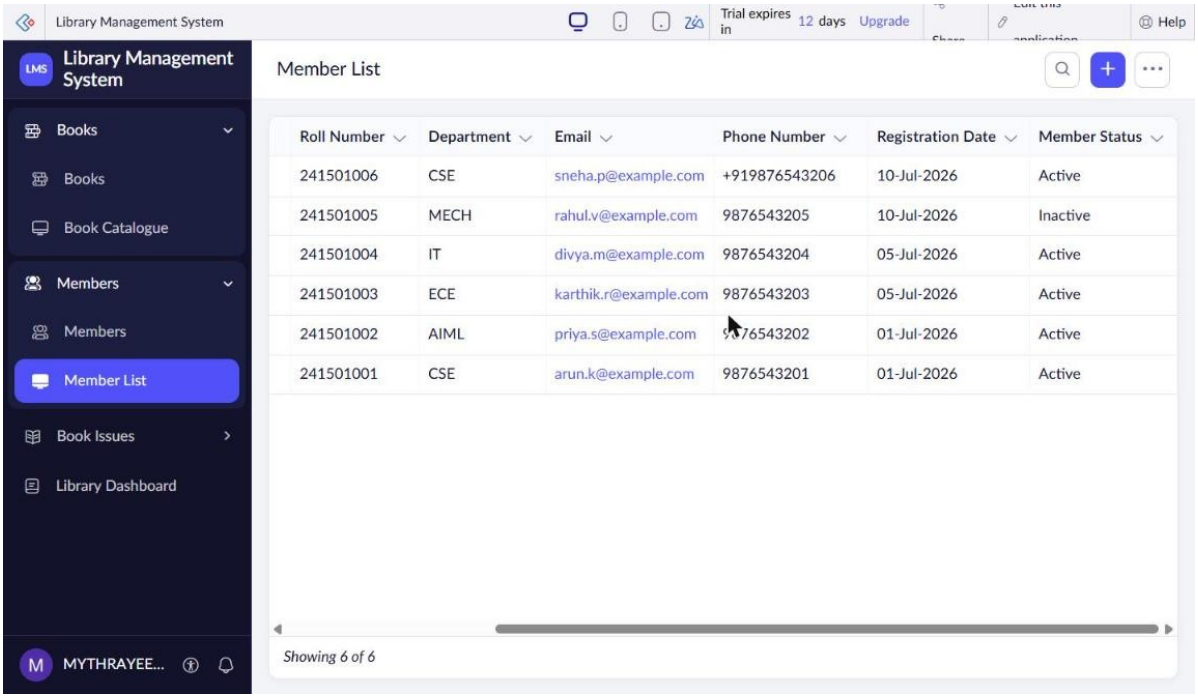

Fig. 7.3: Registration Date and Member Status columns

Observation:

Total members	Active	Inactive
6	5	1 (Rahul V)

Result:

The Member List report was created and shows all six members with their status.
